Ausgangslage

The screenshot displays a Trello board for a project named 'Software Engineering III: Projekt - free'. The board is organized into several columns representing the project workflow:

- Backlog:** Contains tasks like 'CSS Anpassen (vgl. BL1 Task 3)', 'Datenbanktabellen für Einkaufsliste aufsetzen', 'Datenbank-Controller umsetzen', 'UI aufsetzen', and 'Unit-Tests schreiben'. Each task is associated with a specific sprint and task number.
- To Do / Sprint Backlog:** Features a 'READY TO GO' stamp and a task 'Definition of Ready'.
- Doing:** Shows tasks in progress, including 'BL1 1: Ich als Nutzer*in möchte leicht ein neues Rezept hinzufügen können' and 'Datenbank-Service umsetzen'.
- Testing:** Includes a task 'Teststrategie'.
- Code Review:** Lists tasks like 'HTML Gerüst' and 'Component/Controller/Logik (Typescript)'.
- Done:** The final column, marked with a large red 'DONE' stamp, containing tasks like 'Teststrategie entwickeln', 'Projekt aufsetzen', 'Datenbanktabellen für Zutaten aufsetzen', 'Datenbanktabellen für Rezepte aufsetzen', and 'Firebase einrichten'.

On the left side of the board, there are sections for 'Allgemeine Infos' (including a 'Note?' image), 'Artefakte' (with a diagram), and 'Product Goal' (with a 'Persona' diagram). The bottom of the board shows a URL: <https://trello.com/c/StMEHPv/16-ich-als-nutzer-in-moechte-meine-lieb-lin-as-rezepte-in-der-aap-anschauen-koennen>.

Board nach Entwicklung

The screenshot displays a Trello board for a project titled "Software Engineering III: Projekt". The board is organized into several columns representing different stages of the development process:

- Allgemeine Infos:** Contains a "Note?" card with a chalkboard image and a "Product Goal" card with a yellow background.
- Backlog:** Lists tasks such as "CSS Anpassen (vgl. BU1 Task 3)", "Datenbanktabellen für Einkaufsliste aufsetzen", and "Datenbank-Controller umsetzen".
- To Do / Sprint Backlog:** Features a "READY TO GO" stamp and a "Definition of Ready" card.
- Doing:** A column for tasks currently in progress.
- Testing:** Includes a "Teststrategie" card.
- Code Review:** Contains cards for "HTML Gerüst" and "Component/Controller/Logik (Typescript)".
- Done:** A green column for completed tasks, featuring a large red "DONE" stamp.

The board also includes a "Definition of Done" card and a "Persona" card with a stick figure and the text "Kocht oft selbst". The interface shows various Trello features like "Automatisierung", "Menü anzeigen", and "Einladen".

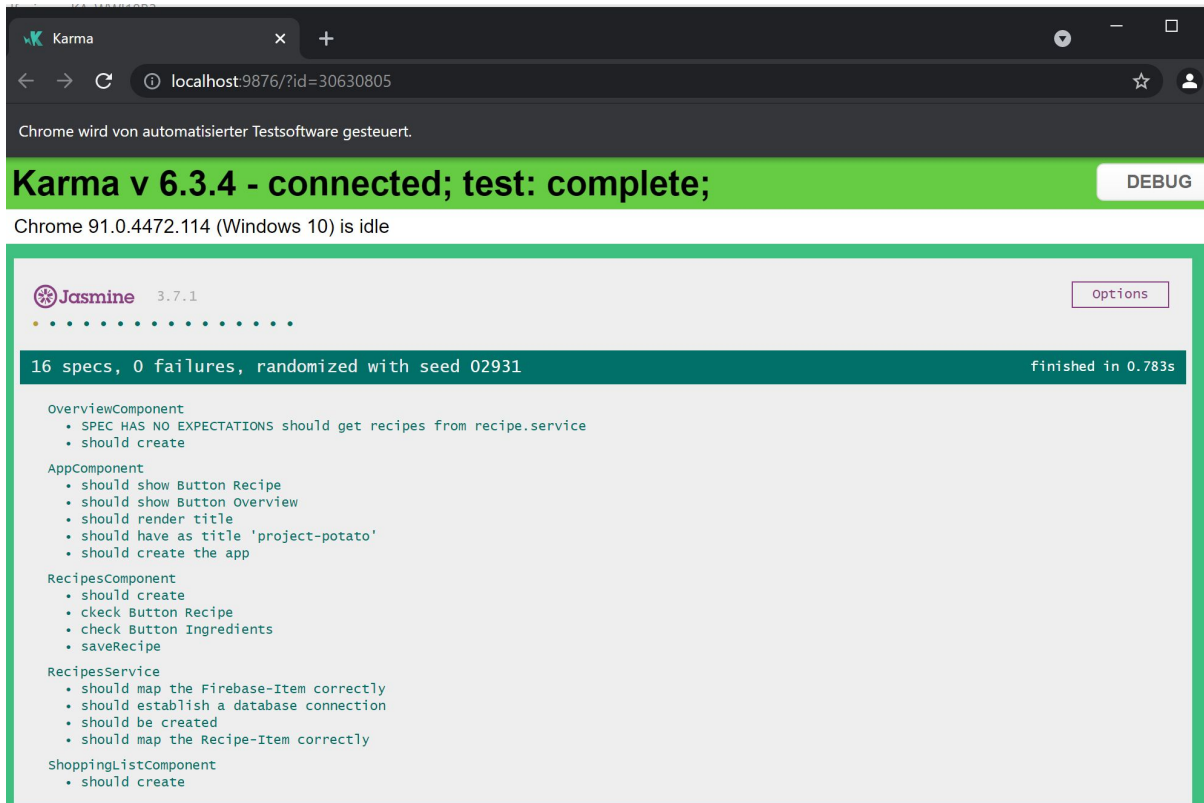

Impediments

- Probleme mit Karma und AddIn Istanbul zur Code Coverage, sodass sich die DoD nicht komplett umsetzen ließ

Lessons learned

- Durch granulares Aufteilen lässt sich der Fortschritt besser messen
- Selenium IDE ist grundsätzlich ein recht unkompliziertes Tool und lässt sich gut für Frontend-Tests verwenden
-

Testabdeckung

The screenshot shows a web browser window with the Karma test runner interface. The browser's address bar shows `localhost:9876/?id=30630805`. A green banner at the top of the Karma interface displays the text **Karma v 6.3.4 - connected; test: complete;** and a **DEBUG** button. Below this banner, it states "Chrome 91.0.4472.114 (Windows 10) is idle". The main content area features the Jasmine logo and version 3.7.1, along with an "Options" button. A dark green status bar indicates "16 specs, 0 failures, randomized with seed 02931" and "finished in 0.783s". The test results are listed below:

- OverviewComponent
 - SPEC HAS NO EXPECTATIONS should get recipes from recipe.service
 - should create
- AppComponent
 - should show Button Recipe
 - should show Button Overview
 - should render title
 - should have as title 'project-potato'
 - should create the app
- RecipesComponent
 - should create
 - check Button Recipe
 - check Button Ingredients
 - saveRecipe
- RecipeService
 - should map the Firebase-Item correctly
 - should establish a database connection
 - should be created
 - should map the Recipe-Item correctly
- ShoppingListComponent
 - should create
